

PROFILE OF INNOVATION

Schlüter®-KERDI-BOARD

Substrate, building panel, bonded waterproofing

Suggested Retail Price Sheet

Schluter®-KERDI-BOARD

Schluter®-KERDI-BOARD is a multifunctional tile substrate and building panel, which can also be used for creating bonded waterproofing assemblies with tile coverings.

It consists of an extruded polystyrene foam panel, with a special reinforcement material on both sides and fleece webbing for effective anchoring in thin-set mortar.

With the available panel thicknesses of 3/16", 3/8", 1/2", 3/4", 1", 1-1/2", and 2" (5, 9, 12.5, 19, 25, 38, and 50 mm), KERDI-BOARD allows the installer to prepare and create a broad range of substrates and building elements for the installation of ceramic and natural stone tile that are flat, level, plumb, square, and dimensionally stable. With suitable preparation of the abutting seams and joint areas, the panel may be used for bonded waterproofing assemblies.

The boards are simply cut to size with a utility knife. The gridlines, which are printed on the surface, are helpful for neat and quick cuts and installation.

Tiles can be installed directly over KERDI-BOARD using the thin-set method.

i
 KERDI-BOARD panels are shipped in bundles only. Please order in multiples of the bundle quantity.
 Bundles are packaged using protective endcaps to prevent damage. Additional protective endcaps are included on each pallet to allow for repackaging of bundles as needed.

Schluter®-KERDI-BOARD-V

Schluter®-KERDI-BOARD-V is a vertically grooved substrate and building panel for creating curved elements. If a larger expanse of panels is required, several panels can be connected along the edges with thin-set mortar, Schluter®-KERDI-FIX adhesive, or double-sided adhesive tape.

Schluter®-KERDI-BOARD-V

Schluter®-KERDI-BOARD-E

Schluter®-KERDI-BOARD-E is an L-shaped panel used to create corners and pipe or column coverings.

The panels feature a V-shaped groove and are shipped in a space-saving flat design, which makes them easy to store. The flat panels are also quick to cut to the necessary dimensions. Thin-set mortar, Schluter®-KERDI-FIX adhesive, or double-sided adhesive tape is applied to the V-groove. The panels are then folded prior to installation.

Schluter®-KERDI-BOARD-ZW

Schluter®-KERDI-BOARD-ZW is a stainless steel angle profile with two trapezoid perforated anchoring legs. It is used to fasten and stabilize structures made of KERDI-BOARD panels. It is attached to the substrate with either screws or thin-set mortar.

Schluter®-KERDI-BOARD-ZW
